Okay [redacted] spent the afternoon reading everything else pending. PTU has no issues w/any of the content that we were provided (since videos and pictures were no included in our review process). We didn't see anything in the information we were given that misstates Bureau policy or is identified as proprietary that is actually Bureau-specific. Hopefully this covers everything you need, but if not please let me know what else you need in this regard. Thanks for your patience [redacted]

Hi [redacted] - just an update. I have the Program Managers reviewing the chapters. So far we have completed Chapters 1-5; 1-4 have no issues but potentially there may be issues w/Chapter 5. As the PMs and myself are all TDY to various locations doing PTU work this week, we won't be together again until sometime next week to discuss the potential issues w/Chapter 5 until we are back together. We'll continue w/the other chapters as well but I wanted you to know what we had completed thus far. Let me know if you have any questions. I'll have limited email access this week but back in the office next week. Thanks [redacted]

Hello [redacted]

b6 -2

I appreciate you getting back to me so quickly. I'm sending this electronically, but if you need a hard copy please let me know and I will send one.
Please see SA Joyner email following mine for his manuscript. Also, I've attached our Prepublication Guidelines for your information.

As I said in my earlier email, I'm the Coordinator of the Prepublication Review Office. My office's function is to review intended publications by current/former FBI employees to determine if the employee has included information obtained during FBI employment, which should not otherwise be released. Examples would be classified information, Rule 6e, sensitive techniques, pending investigations or prosecutions, personal privacy info, FBI information not available to the general public through means such as FOIPA, the media or court records, etc.

As is more common than not, it is necessary that we call upon FBI "subject matter experts" to review the submissions of current/former FBI employees as the subject matter at issue is beyond the general expertise of my employees. It is in that regard, that I am contacting you.

Would you please have someone in your office review a portion of a manuscript that we received from Special Agent Charles Joyner titled, "Joyner Manuscript." The manuscript describes defense tactics. Please provide us your conclusions regarding the information in question. Should you have questions, please feel free to call or email me.

General Rules-We have 30 business days to respond to the author. We would like to respond to the requester as soon as we can. Also, as the material is proprietary information, it is not to be disclosed/shared beyond those persons involved in the review process.

Hi [redacted] - absolutely our unit (Physical Training Unit) should review it. I do know Charles Joyner, however, anything that references it as being related to the FBI defensive tactics program or instruction should be "blessed" (so to speak) by PTU. If you want to email it (or route it if you only have a hard copy) to me, I'll review it. I am TDY this week but will be back in the office on Monday and we should be able to go thru it over the next week or so. Thanks for checking w/me and let me know if you have any questions. I think you use the Blurb we sent you. Also, do the "defensive tactics" amount to LE sensitive matters--you may want to ask TD at Quantico to give a quick opinion.
